

The Faith Preschool and Kindergarten Director Search Committee (DSC) has met over the last 10 months to compile a job description which includes the standards and expectations required to continue the great history and path of the school. In an effort to provide a process that recruits candidates to immediately hit the ground running, the DSC used the existing job description for the school, hosted numerous experts from the early learning community, reviewed national standards for accreditation, and assessed all state requirements.

Throughout this process, the DSC has worked collaboratively amongst the committee members and also received significant comment from interested parties; Faith parents, Faith Church Members, the Tallahassee and greater Big Bend Region early learning community, and especially the Faith Preschool and Kindergarten faculty and staff. The DSC has compiled a final job description, which should be posted and available by the time you're reading this update, and will receive applications through January 15, 2020. The DSC has identified some baseline requirements for all applicants and we expect to secure a great candidate, slated to begin in May/June 2020.

The DSC will be posting the Director's job on numerous websites and we will provide a link for that posting(s) to be sent to any interested candidates. We ask that each interested candidate fill out a standard form, provide a complete resume and also provide no less than 3 professional references. Interested candidates can send their completed application information to preschoolsearch@faithpcusa.org and the DSC will review these on a rolling basis. Once received, applicants will receive confirmation that their submission was received and the candidates the DSC selects to interview will be notified individually.

Should anyone have any questions, please direct all of those to preschoolsearch@faithpcusa.org.

Thank you for your continued support of the Faith Preschool and Kindergarten!
